

RE:SET

K-Momentum

The willingness to aim higher is what sets KKPC apart. We are moving toward our goals by investing in new opportunities that will enable us to achieve strong performances in the years ahead. In 2018, we set a plan to expand our production capacity and reorganized R&BD teams in order to be fully prepared to meet the challenges of the future, thereby sustaining our momentum towards stronger and sustainable growth.

LEADING MARKET BY READING THE MARKET

Only companies with an in-depth understanding of their markets can be leaders. It is also vital to build foundations for sustainable, long-term growth through preemptive investment. Despite constant market volatility, KKPC thrives by pursuing innovation and looking to develop drivers of new growth, which has enabled us to maintain our robust growth momentum in 2018, even in difficult market conditions.
