SECTION 4: First aid measure	95
4.1. Description of first aid mea	asures
Inhalation	Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. If breathing stops, provide artificial respiration. For breathing difficulties, oxygen may be necessary. Get medical attention.
Ingestion	Never give anything by mouth to an unconscious person. Rinse mouth thoroughly with water. Give plenty of water to drink. Give milk instead of water if readily available. Never give anything by mouth to an unconscious person. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Rinse nose, mouth and throat with water. Get medical attention if any discomfort continues.
Skin contact	Rinse immediately with plenty of water. Remove contaminated clothing and rinse skin thoroughly with water. Wash contaminated clothing before reuse. Get medical attention if irritation persists after washing. Contact with hot product can cause serious thermal burns. Get medical attention if symptoms are severe or persist.
Eye contact	Rinse immediately with plenty of water. Continue to rinse for at least 15 minutes and get medical attention.
4.2. Most important symptoms	and effects, both acute and delayed
General information	Not available.
4.3. Indication of any immedia	te medical attention and special treatment needed
Notes for the doctor	Treat symptomatically.
SECTION 5: Firefighting meas	sures
5.1. Extinguishing media	
Suitable extinguishing media	Extinguish with foam, carbon dioxide, dry powder or water fog.
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising f	rom the substance or mixture
Specific hazards	Heating may cause a fire. Dust may form explosive mixture with air.
Hazardous combustion products	Toxic gases/vapours/fumes of: Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapours. Oxides of carbon.
5.3. Advice for firefighters	
Protective actions during firefighting	Wear suitable protective equipment, including gloves, goggles/face shield, respirator, boots, clothing or apron, as appropriate. If a leak or spill has not ignited, use water spray to disperse vapours and protect men stopping the leak. Cool containers exposed to flames with water until well after the fire is out.
SECTION 6: Accidental relea	se measures
6.1. Personal precautions, pro	otective equipment and emergency procedures
Personal precautions	Wear protective clothing as described in Section 8 of this safety data sheet. Avoid inhalation of dust and vapours. No smoking, sparks, flames or other sources of ignition near spillage. Provide adequate ventilation. Foam.
6.2. Environmental precaution	ns
Environmental precautions	Do not discharge into drains or watercourses or onto the ground. Avoid discharge to the aquatic environment. Large Spillages: Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body.
6.3. Methods and material for	containment and cleaning up
Methods for cleaning up	Re-packaging dismantled rubber. Collect spillage with a shovel and broom, or similar and reuse, if possible. VENTILATE/EVAPORATE. Avoid generation and spreading of dust. Collect and place in suitable waste disposal containers and seal securely. For waste disposal, see Section 13.
6.4. Reference to other section	ons
Reference to other sections	For personal protection, see Section 8. For waste disposal, see section 13.
SECTION 7: Handling and ste	orage
7.1. Precautions for safe hand	dling
Usage precautions	Avoid contact with skin and eyes. Wear protective clothing as described in Section 8 of this safety data sheet. Provide adequate ventilation. Avoid handling which leads to dust formation. Avoid inhalation of vapours/spray and contact with skin and eyes. Use fire-extinguishing media suitable for the surrounding fire. Wash contaminated clothing before reuse. Avoid heat, flames and other sources of ignition. Do not eat, drink or smoke when using the product. Wash hands after handling. Maintain a clean working environment. Avoid above 316 °C and contact. Dust may form explosive mixture with air. Take precautionary measures against static discharges.
7.2. Conditions for safe storage	ge, including any incompatibilities
Storage precautions	Protect against direct sunlight. Avoid high temperature, moisture, UV light when stored inside. Store at moderate temperatures in dry, well ventilated area. Avoid heat. Avoid contact with the following materials: Strong oxidising agents. Collect and place in suitable waste disposal containers and seal securely.
7.3. Specific end use(s)	
Specific end use(s)	The identified uses for this product are detailed in Section 1.2.
